

SETHULAKSHMI BABU

AI & Data Analyst | Generative AI | Business & Process Analysis

Paris, France | +33 780790752 | sethulakshmikb760@gmail.com | [linkedin.com/in/sethukb](https://www.linkedin.com/in/sethukb) | github.com/codes-by-sethu

PROFESSIONAL PROFILE

Master's student in Data & AI focused on the intersection of AI, data, and business. Experienced in analysing business needs, workflows and data, evaluating Generative AI solutions, and translating requirements into practical AI solutions across business and technical teams.

SKILLS

AI & Generative AI: LLMs (GPT, Claude, Gemini, Llama), AI Agents, RAG, Prompt Engineering, BERT Embeddings, Sentence Transformers, NLP, OCR (PaddleOCR)

Data & Analytics: Data Analysis, Data Preprocessing, EDA, Feature Engineering, Model Evaluation, Pandas, NumPy, Scikit-learn, Power BI, Excel, Matplotlib, Plotly

Business & AI Solution Analysis: Requirements Analysis & Gathering, PIR Analysis, User Stories & Acceptance Criteria, BPMN, Workflow Analysis, Process Optimization, Ground-Truth Dataset Creation, Test Scenario Design, Output Validation, UI/UX Evaluation, KPI & Revenue Reporting

Technical & Automation: Python, JavaScript, TypeScript, REST APIs, Flask, FastAPI, LangChain, OpenAI API, Gemini API, JSON, Azure OpenAI, Azure Functions, Azure Cosmos DB, CMDDB

Tools & Collaboration: Azure DevOps, Git, GitHub, GitLab, Kanban, Microsoft Visio, Microsoft Teams, Microsoft Word, PowerPoint

WORK EXPERIENCE

Digital Accelerator Intern (AI/GenAI)

Cargolux Airlines International S.A., Luxembourg Apr 2026 – Aug 2026

- Analysed PIRs across **5 projects** to identify recurring requirements, similarities and project pain points across current, past and future initiatives.
- Identified missing and unclear PIR requirements, discussed them with stakeholders, and converted clarified requirements into **user stories and acceptance criteria**.
- Collected **100 internal documents and metadata** to structure an AI knowledge base; prepared **25 handwritten Q&A pairs** as ground truth to validate AI responses and identify solution gaps.
- Designed and refined **system prompts and output schemas** for structured and unstructured data, using testing results and stakeholder feedback.
- Prepared and refined **AI, OCR and UI/UX pipelines**, including PaddleOCR workflows, based on testing and stakeholder feedback.
- Created **BPMN diagrams, project timelines and revenue reports**; used **Power BI** for project information and dashboard reporting.

AI Developer – Student Consultant

CMI Consulting, Paris, France Oct 2025 – Jan 2026 [GitHub](#)

- Developed an AI-based clinical decision support prototype combining machine learning models and LLM capabilities for interpretable predictions on 73k+ clinical cases.
- Built Python orchestrator scripts to automate feature verification and model management, reducing manual setup by 30%.
- Delivered outputs with confidence, severity, and urgency scores supporting clinical review and decision-making.
- Applied data augmentation and class balancing to improve model stability and label fairness.

SELECTED PROJECTS

AI-Powered Smart Analytics Dashboard

- Built a local-LLM pipeline using **Llama 3.2 + Ollama** for sentiment, theme and confidence classification of customer feedback.
- Implemented **priority scoring** using sentiment, theme severity and confidence thresholds with structured JSON validation.
- Developed a **Streamlit + Plotly dashboard** with sentiment, theme, urgency and confidence analytics; achieved **~0.79** average AI confidence.

EDUCATION

Master of Science in Engineering – Data and AI

2024–Present

ESILV Engineering School, Paris, France

Bachelor of Science in Computer Science

Graduated 2023

Mahatma Gandhi University, India

CERTIFICATIONS & LANGUAGES

Ethical Hacking (2023), IBM watsonx.data Technical Essentials (2025), Agile Methodology (2024)

Languages: English (C1), French (B1), Malayalam (Native)
